Important Safety Warnings

- 1 Follow the information on the warning labels appearing on the upper bunk end structure and on the carton. Do not remove warning label from bed or from cartons.
- 2 Always use the recommended size mattress or mattress support (or both) to help prevent the likelihood of entrapment or falls.
- 3 Surface of mattress must be at least 5 inches (127 millimeters) below the upper edge of guard fences.
- 4 Do not allow children under 6 years of age to use the upper bunk.
- 5 Attachment of guardrails. If the bunk bed will be placed next to the wall, the guardrail that runs the full length of the bed should be placed against the wall to prevent entrapment between the bed and wall.
- 6 Periodically check and ensure that the guard fences, ladder and other components are in their proper position, free from damage, and that all connectors are tight.
- 7 Do not allow horseplay on or under the bed. Prohibit jumping on the bed.
- 8 Always use the ladder for entering and leaving the upper bunk.
- 9 Do not use substitute parts. Contact Room & Board for additional guard rails and replacement parts .
- 10 Use of a night-light may provide added safety precaution for a child using the upper bunk.
- 11 Always use guardrails on both long sides of the upper bunk. If the bunk bed will be placed next to the wall, the guardrail that runs the full length of the bed should be placed against the wall to prevent entrapment between the bed and wall.
- 12 The use of water or sleep flotation mattresses is prohibited.
- 13 STRANGULATION HAZARD—Never attach or hang items to any part of the bunk bed that are not designed for use with the bed; for example, but not limited to, hooks, belts and jump ropes.
- 14 Prohibit more than one person on upper bunk.
- 15 Keep these instructions for future reference.
