

THE 2014 100 BEST COMPANIES TO WORK FOR

Room & Board

LARGE

For more than 30 years, Room & Board has been helping people furnish their homes with the help of its modern furniture and classic designs. In addition to helping customers create beautiful spaces, the Minneapolis-based company has also created a top-notch workplace for its employees.

Room & Board not only cares about its employees from a career standpoint, but also on a personal level. Employees say the company “understands that when you have healthy employees, it’s a lot more productive.” With that in mind, the company continues to offer new options for employees in the health and wellness realm. Room & Board is also known for being transparent with its employees, and showing its appreciation for their commitment to the company on work anniversaries.

In addition to a competitive benefits package, employees also appreciate more unique company benefits such as an on-site, state-of-the-art fitness center and personal trainer, an on-staff certified financial planner, and access to personal travel planning.

Ultimate Office ILLUMINATION

Room & Board

Room & Board doesn't limit its modern furniture and spatial solutions to its retail stores. Its office space in Minneapolis is beautified by streams of natural light and brings the outdoors in with real plants and flowers. What's even better than a beautiful office that incorporates natural elements? Actually enjoying nature itself, of course. The furniture company has outdoor meeting rooms to take advantage of the nice weather whenever possible.
