Room & Board

Not only is Room & Board a place where customers come to find beautiful furniture and designs for their homes, but it's also a place that employees enjoy coming to each day. Focused on creating an environment of collaboration and respect, Room & Board believes one of its greatest strengths is its engaging work environment. A traditional benefits package, a flexible work schedule, and opportunities for professional growth are just some of the perks employees enjoy. Room & Board also encourages its employees to take advantage of all of its unique company benefits, like an on-site fitness center and personal trainer, and an on-staff certified financial planner.
