

MANTEL WALL SHELF

Recommended Tools/Materials

- Power drill
- Level

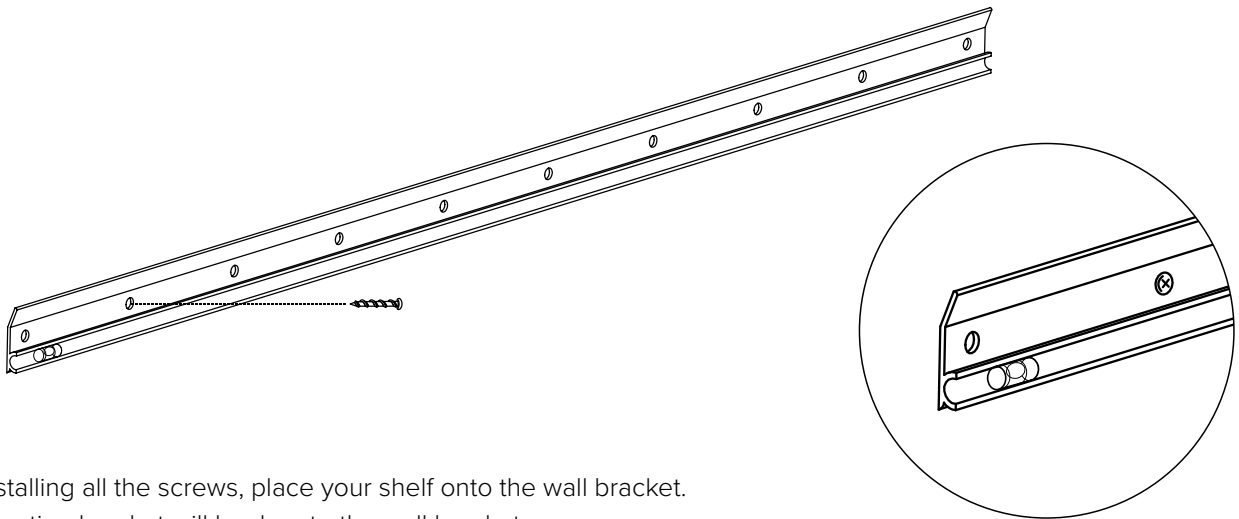

This Product Includes

- Mantel wall shelf
- Mounting bracket
- Wall bracket
- 1/2" screws

CAUTION: This shelf must be mounted directly into at least one stud. The remaining connection points can be drywall anchors, but more stud connections provide more security. If you are mounting this shelf to a surface other than drywall/studs, or if you are uncertain about assembly, please contact a professional for help with installation.

Assembly Instructions

1. First, screw the wall bracket to the wall using just one screw. Then, place your level on the wall bracket and make sure the bracket is level before installing further screws.

2. After installing all the screws, place your shelf onto the wall bracket. The mounting bracket will hook onto the wall bracket.

NOTE: the maximum recommended load is 20 pounds.
