Natural Foam Mattress Topper

1. Unzip and open the fabric wrap and lay it down on a clean surface.

2. Unwrap the foam insert and place it inside the fabric wrap. Try not to tug on the foam insert as this could damage it.

3. Zip the fabric wrap closed around the foam insert, taking care to line up the gusset of the wrap with the edges of the insert to achieve defined corners.

4. Place the assembled mattress topper on your mattress, then add your mattress pad.
