1. Turn off power to the circuit at the breaker.

2. Using wire cutters/strippers, trim back about 3/4"
   of insulation from the two wires connected to the
   mount socket.

3. Cap the bare ground wire with a wire nut (if your
   fixture doesn't use a ground).

4. Connect the mounting plate wires to the junction box
   wires with the provided wire nuts (typically black-to-
   black/hot, white-to-white/neutral).

5. Attach the mounting plate to the junction box using
   the two mounting screws.

6. Align the shade on the mounting plate and rotate slowly
   with light upward pressure until the magnets engage.

8. Restore power at the breaker and test the light.
