

CATO CHAIR

Recommended Tools and Materials

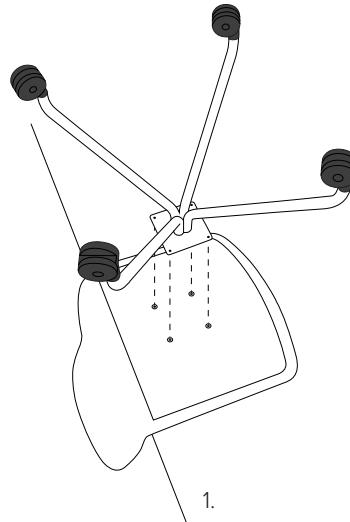

- 4mm Allen wrench (hex key)

This Product Includes

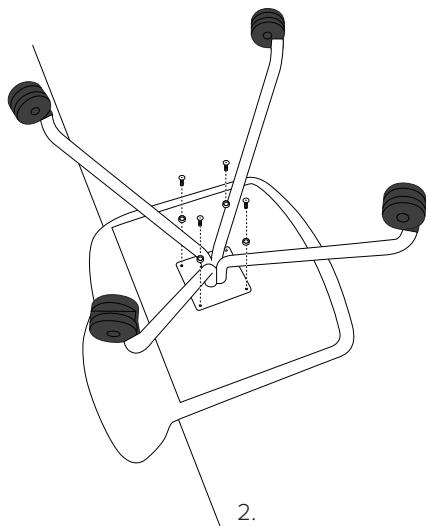

A. Casters	C. Chair frame
B. Metal leg base	D. Screws

Instructions:

- 1 Place chair seat upside down on table or work surface, and align the leg base with the screw holes.

- 2 Place washers and screws in holes.

- 3 Tighten using hex wrench. Tightening partially then going back and tightening each screw fully can improve attachment.
