

Cirro Umbrella Assembly and Usage Instructions

- 1 Remove umbrella from outer packaging.
- 2 Place upright in desired position in the base and screw base knobs tight to lock in place.
- 3 To open, pull the rope pulley down. You may need to gently pull the canopy frame ends away from the pole to free them.
- 4 Lock the rope in place by pushing it into the rope cleat (Fig. 1).
- 5 Insert pin into hole to safely lock canopy into place.

Note: Although this umbrella has been tested to withstand use in extremely windy test conditions, we recommend closing your umbrella when wind speeds exceed 25 miles per hour.
