

# Securing Your Leaning Mirror

1. Place mirror in desired position against wall. With a pencil, make a mark on the wall at the center of the top of the mirror.
2. Move mirror away from position, so pencil mark is exposed. Measure down 2 inches from pencil mark and install provided wall anchor.
3. Attach one end of the cable to wall anchor with screw.
4. Reposition mirror in desired location.
5. Attach cable to top of mirror with screw provided.

**Please Note:** Cable is to be used to secure mirror as it leans against your wall. It is not safe for hanging or suspending the mirror.
