

ASSEMBLY INSTRUCTIONS: PISA

List of parts

- 1 – right leg
- 1 – left leg
- 1 – 6³/₁₆" shelf
- 1 – 7⁹/₁₆" shelf
- 1 – 9¹/₈" shelf
- 1 – 10⁵/₈" shelf
- 1 – 12³/₈" shelf
- 1 – 14" shelf

Hardware

- 2 – L-brackets
- 8 – 1¹/₄" wood screws
- 12 – bolts

Tools needed

- Phillips screwdriver
- drill with 7/64" bit
- pencil

Directions

1. Place right and left legs angle-side down on the floor with slots facing in.
2. Insert the largest shelf into the bottom slot of the right leg. The back of the shelf (indicated by a small drilled hole) must face the floor. Insert bolt and tighten so that the shelf cannot fall out of its slot but can still move freely within the slot.
3. Repeat step 2 for the remaining shelves from largest to smallest.
4. Attach the left leg to the left side of the shelves in the same manner as the right leg.
5. Tighten all bolts. CAUTION: *do not overtighten*.
6. Position Pisa against the wall, and mark the wall at the top of each leg immediately above each notch. Place the L-bracket directly under the mark and screw into wall (see Figure 1). Repeat with L-bracket for other leg.
7. Drill holes into the top of each leg corresponding with holes in the L-brackets. Insert screws through the L-brackets and into the legs.
